

WASHINGTON. BIRTHDAY OF. PRESIDENT.

White House the Center of Great Public Interest.

Hundreds of Messages and Many Reminders of the Event.

Public Health Association Assembles—Liquid-Juel Investigation—Cabinet Meeting.

BY THE ASSOCIATED PRESS—A.M.

WASHINGTON, Oct. 27.—The President today received his 50th birthday and touching reminders of the event came to him from every part of the country. Hundreds of telegrams and letters of congratulations were received at the White House during the afternoon when the members of the Cabinet assembled for the annual semi-weekly meeting, they joined in extending their cordial congratulations to the President.

Among the floral offerings was a huge basket of chrysanthemums from the propagating gardens. It contained specimens as large as the crown of a De Mornay pear.

PRESIDENT PROFILING SCANDALS.

BY DIRECT WIRE TO THE TIMES.

WASHINGTON, Oct. 27.—[Exclusive Dispatch.] With the Bristow and Bonaparte reports in his hands, the President is now in full charge of the investigation of the postoffice scandal. The New York office is first to be examined, and the full machinery of the inspection service will be in operation there. Mr. Bristow will select men to make an inspection of every department of the postoffice, and it was said tonight that there will be no New York men engaged in this work.

It is not denied, even by the friends of Postmaster Van Cott and the investigation, that a large part of the Postmaster's office itself, those familiar

coming to the ears of the President and Postmaster-General Payne do not hesitate to say that when once the inspectors get to work, Van Cott's tenure of office will be a matter of great uncertainty.

"Should it follow that Mr. Van Cott's resignation is to be found in the result of the new investigation," said an official familiar with the situation tonight, "it would undoubtedly mean an almost complete reorganization of the New York office. To my knowledge, the situation has been considered bad there for some time.

"Post of all kinds seem to be rapidly mixed with the New York post office," said this source. "The affair especially has attracted the attention of the President, and more than another was the cause of the ordering of a new investigation, which will be as thorough as is possible for Mr. Bristow's men to make it."

PERRY HEATH TO GO.

BY DIRECT WIRE TO THE TIMES.

WASHINGTON, Oct. 27.—[Exclusive Dispatch.] Lewis C. Coidge, a Massachusetts newspaperman, as well as a close associate of President Roosevelt, has arrived in Washington. He is slated to become secretary of the Republican National Committee when that body meets in Washington in December. The information came from a high source today, and means the retirement of f Perry Heath of Utah, formerly First Assistant Postmaster-General who has been secretary of the committee since 1904.

Heath's name has been connected with scandals in the Postoffice Department and the Bristow report, now in the hands of the President, is said to deal unappraisingly with his administration of the office of first assistant.

\$250 CECILIAN GIVEN AWAY

We will be the successful person in the Cecilian missing word contest? Who knows—perhaps you may. Are you trying?

No. 12—"The rose forever glides singing alone:
The rose on the bank bends down to its song;
And the flower, as it listens,
Till the rising wave glistens and kisses its lips." (B)

Kranich & Bach
PIANOS

The Kranich & Bach cost more than most, but it gives over so much more—artistic music, and the real music lover enjoys and demands it. It comes in a few more parades at the time of the Cecilian. The Cecilian is in token of victory at the finish. McVey figured only as a sort of human punching bag—a foil for the shifty colored champion's art. Not a blow did the puncher land, and whenever the best topper became the least bit ambitious, he smashed right shot across his left shoulder. The jaw was all over, the tender care of Duval Ed Martin and Billy Roche, true friends in adversity. Sam McVey was a pitiful figure. His mouth was like a balloon; his left cheek was pushed in until it had closed one eye, and a series of contusions on the other side of his physiognomy had done yeoman service to his other cheek. Hardly a spot on his body or arms could bear touching. He will

JOHNSON STILL "IT."

Gets Decision Over McVey After
Punching the Oxnard Man Through
Twenty Terrible Rounds—Never a
Scratch for Champion.

AM McVEY was hammered last night until his face looked as though a goat had chewed it. Jack Johnson pounded him wherever he pleased, but he might as well have pounded a street car fender. It lasted the limit.

There is nothing left for McVey but his Oxnard rock pile, or a seven days' slugging contest with Joe Grim, the Italian with the cast-iron solar plexus.

Only the last song saved the referee, Charley Eytion, who was completely exhausted with wrenching apart the great dripping, struggling black carcasses.

Some of the credit for the victory must go to Johnson's bathe, which was the most amazing garment ever aired in public. It was covered with roses. He looked like a colonial wall paper design spread on a stormy night.

The pavilion had the biggest crowd of its history. When the prize-fight ordinance comes to a vote, some of the City Councilmen and other public officials will certainly have inside information.

In the presence of a multitude of spectators which taxed the accommodations in Hazard's Pavilion to the very last seat and filled the spacious hall even to the doors, Sam McVey, contemptuous of even the Johnson, came with his face beaten to the consistency of a pounded beefsteak, one eye closed and the other nearly so, stood before Champion Jack Johnson for twenty hopeless rounds last night, going through an hour and twenty minutes of the worst hell that ever was inflicted upon a heavyweight pugilist in this city.

Johnson's cleverness was dazzling; his defense was mechanically perfect; a peculiar subtlety seemed to divine for him in every move that his opponent was trying for and not only did the shifty fellow miscall the turn, McVey was just as much puzzled by Johnson's art as he was the first time they met. He never really learned to solve the first principles of his opponent's finished boxing, and had nothing to do with it all over.

The art in his dressing room, the tender care of Duval Ed Martin and Billy Roche, true friends in adversity. Sam McVey was a pitiful figure. His mouth was like a balloon; his left cheek was pushed in until it had closed one eye, and a series of contusions on the other side of his physiognomy had done yeoman service to his other cheek.

Hardly a spot on his body or arms could bear touching. He will

be being worsted, would cut loose and bore in a bull, his hands swinging wildly into space in the blinding fury of vindictive judgment upon some vulnerable part of Johnson's well-protected anatomy.

Johnson set himself for a telling blow, waited like a panther about to spring, and McVey, with a left uppercut, hit him in the ribs and blocked a right hook.

Second round—McVey landed a light left to the head, and Johnson followed with the same result.

Johnson made McVey quit being rough.

Johnson planted a hard left on the face.

McVey came in. Johnson feinted McVey into a knot repeatedly and chopped him at leisure.

Third round—Johnson opened with a light left to the head, and McVey followed with the same result.

Johnson made McVey quit being rough.

Johnson planted a hard left on the face.

McVey came in. Johnson feinted McVey into a knot repeatedly and chopped him at leisure.

Fourth round—Johnson opened with a hard left to the face, repeating it twice without a counter. Johnson right uppercut to McVey's nose. McVey landed an uppercut three times; Johnson laughed at him. McVey landed a right on the ribs, half-heartedly, and reached Johnson's kidney lightly in a clinch.

Johnson's kidney lightly in a clinch.

Johnson landed a left to the face, blocked a return, and closed the round with a right hook.

Fifth round—in a hot mix, McVey reached the ribs and Johnson responded wildly. Johnson landed a left on McVey's face and the blood came after the punch. Johnson worked in a hard right hook as McVey advanced. Both men were exhausted.

Sixth round—McVey rushed and Johnson caught him partly off his balance.

Employed at the home of Arthur W. Fisher, No. 942 South Alvarado street, told of having been robbed in the Fisher home by a man who represented himself to be an inspector of electric lights, and who afterward robbed the house, she said. She robbed the house herself, securing booty valued at between \$300 and \$500, consisting of money, jewels and jewelry.

Yesterday afternoon the girl was taken into custody at Ocean Park while wearing a watch which she had stolen from the Fisher residence. She was also taken to the home of the lady by whom she had been employed for one or two days, and there in the presence of witnesses, confessed her guilt and produced all the stolen jewelry with the exception of a small diamond which she said she had lost. She was brought to this city and lodged in the City Jail, charged with grand larceny. The arrest was made by Special Officer Farnes of the Bonnie Brae district, and Detectives Ritch and Talamantes of the city police force, all of whom had been working constantly on the case from the time it was reported.

The girl comes of good family. Her relatives had known for days that she was missing, and had been looking for her so, and thus making it possible for her to secrete her booty, they cooperated with the officers, telling them that it was her guilty husband that had punished her.

About noon on October 6, those who live in the vicinity of the Fisher home had a picnic, some of whom from that house. Several of the neighbors ran to the place, fearing that a tragedy was being enacted there. The front door was found to be locked, but the rescuers found a rear door open and began a search of the house.

In a closet, seemingly almost unconscious, Arthur W. Fisher lay on the floor. His clothing was disarranged, and she presented the appearance of having been in a struggle with some person. She was soon taken into custody and her narrow quarters, and a physician was summoned. Then she became hysterical, or appeared to become so.

THE GIRL'S FIRST STORY.

The girl, who had called at the house, and representing himself to be an inspector, desired to make repairs of the lights in Mr. Fisher's room, that gentleman having sent him to give him a call.

He was with the man when he was arrested, and with the electric lights, as she supposed, about half an hour; then he appeared in the kitchen, where she was at the time. She was then told that the man had the money, at which the man seized her and holding his hand over her mouth, forced her into a closet and locked her in.

The girl gave an excellent description of her alleged assailant, and the description was so accurate that he was arrested for having blackmailed certain persons in Westlake Park. It was then learned that the man who had been with that given of the supposed robber of the Fisher house, Miss Walper was taken before Freeman, and she at once positively declared that he was the man.

But the detectives were not satisfied with her story of identification, and they had her wear a mask, which caused them to suspect that the girl herself had committed the robbery. What first cast suspicion upon her was her actions

immediately after she was discovered in the closet. The physician who had seen her said that her hysteria was assumed, although she had played the part well.

ORIGIN OF THE IDEA.

Then the officers learned that she had been employed by a wealthy lady who recently came here from Chicago. In answer to their questions she called upon this lady to learn what she could about the girl's conduct while in her employ. The lady was amazed when told of the girl's robbery. She told the officers that she had warned Miss Walper against admitting any man into her house, who represented himself to be an electric light inspector. She related how she had given this warning. She stated that in Chicago such robbers were frequent, and that she was a temporary maid servant. It was discovered that the story told by Miss Walper was identical with the name as that of the lady who had engaged her to the employment of the same language.

This satisfied the detectives that they were on the right trail, and a close watch was kept on the movements of the young woman. About four days ago she left the employ of the Fisher family and took a room at Mrs. Roberts' Ocean Park. Yesterday the three officers went to Ocean Park and found Miss Walper wearing Mrs. Fisher's watch. When on the 6th inst. Miss Walper, the pretty seventeen-year-old servant when charged with the robbery ad-

JOHNSON CROSSES WITH THE RIGH T—THE PUNCH THAT DROPPED McVEY IN THE FIRST ROUND.

Johnson had took away from the hall was the knowledge of having done his best and fought a courageous battle against odds that would have made most men quail. No, he had encouraged a fighter as being totally unable to hit his opponent, and that was McVey's role last night. He landed a blow on the jaw, the other on the ribs. All the rest Johnson either blocked before they were well started, or avoided by a well-timed sidestep. The dunderhead was finished, as a boxer he displayed the very acme of the mottit art. Not only in defense was he superb; his lightning delivery of crushing blows, a cheer from even McVey's backers, and cheer from even McVey's backers, and they were by no means in the minority in the hall.

While the colored champion relied mostly upon straight blows with the left hand, he neglected no opportunity to swing, hook, uppercut or shift, and in no way did his attacks give the impression of being either slow or weak. Each came like a shot; clean-cut, decisive, effective. They were timed perfectly, and caught McVey in a most dangerous time—when he was rushing.

Both were in magnificent condition. Johnson, fit to the minute, was a splen-

ance an unpleasant day or two, but has suffered no serious injury.

Johnson escaped absolutely without a scratch to show for his night's work. He might have been engaged in a battle with the best boxer of his school for all evidence to the contrary exhibited by his body after the fight. Today he will sport Billy Roche's gold belt, but last night he was a well-known nobody, and the dunderhead was finished, as a boxer he displayed the very acme of the mottit art. Not only in defense was he superb; his lightning delivery of crushing blows, a cheer from even McVey's backers, and cheer from even McVey's backers, and they were by no means in the minority in the hall.

EVENTS IN LOCAL SOCIETY.

Carrie Lee Draly is one of the many brides. She will be married this evening at 9 o'clock to W. H. Willebrands, on the first of the month. The ceremony will be solemnized by Rev. E. Walker of the Immanuel Presbyterian Church, and is to be at the Hotel Home, No. 106 South Spring avenue. Miss Draly will be assisted by her sister, Miss Margaret, as maid of honor, and Mr. Willebrands' brother, B. O. Willebrands, as best man.

Halloween Charity Ball," given at the auspices of the Los Angeles Chapter of United Daughters of the Confederacy, took place at the Hotel Home, and struck out a most gaily highly enjoyable to the heart throng of society folk who met the light, festive and other-worldly in its jollity. Two large jack-o'-lanterns welcomed the from the veranda, and within them many a gaily dressed approaching the many a gaily dressed. In the waltz, of two-step, presto, the were out, and only the jack-o'-lanterns winks and blinks in the darkness. The masks around the walls were revealed as riding upon broomsticks, cats in the last agonies of despair upon

M. A. CASSIDY,

Prominent Educator and Superintendent of Schools, Lexington, Ky.

Recommends Vinol as Being the Best Cod Liver Oil Preparation.

There has been of late a good deal of discussion in Los Angeles regarding the merits of cod liver oil preparations, whether or not cod liver oil and emulsions that unset the stomach have any medicinal virtues. We send the following letter will be read with interest:

M. A. CASSIDY.

"I am pleased to state that after using different cod liver oil preparations on the market, I find Vinol to be the best of them all. I can only speak from personal experience in fact the oily taste of the cod liver oil is disguised or done away with entirely, and its strengthening properties are truly remarkable."

"It has built up my system, in fact, it has made a new man out of me, enabling me to take up my work with renewed energy and vigor, and I heartily endorse Vinol as the most efficacious and agreeable cod liver oil preparation on the market."

"Knowing that The Owl Drug Co. of this city guaranteed this preparation in the strongest manner possible, they were called upon to furnish me with a supply of Vinol. Vinol is the greatest strength creator and health restorer known to medicine today. We could quote innumerable instances where it has fortified and strengthened the system, strengthened the nerves, cured indigestion, chronic coughs, colds, bronchitis and incipient consumption, given strength to the heart, relieved the displaced weakness with strength and made the sick well."

"Vinol is so delicious to taste and acceptable to the weakest stomach. It contains no drugs or poisonous ingredients, and there is nothing in it to interfere with the absorption of drugs, nauseating oils or emulsions to obtain the curative power of cod liver oil. It is a great strength creator and health restorer known to medicine today. We could quote innumerable instances where it has fortified and strengthened the system, strengthened the nerves, cured indigestion, chronic coughs, colds, bronchitis and incipient consumption, given strength to the heart, relieved the displaced weakness with strength and made the sick well."

"It is for this reason that we offer \$2.50 give back the money every time it fails to give satisfaction." The Owl Drug Co., 320 Spring street.

societies of which Mrs. Murphy is a member.

Notes and Personal.

Mrs. L. M. Lockwood leaves today for Newark, N. J., where she expects to spend a year with her son.

Mrs. Elizabeth Thompson (née Finch) and little daughter of San Francisco are visiting friends in Los Angeles. Mrs. Thompson is a graduate of the Los Angeles Normal School and was a teacher in the public schools of this city for several years prior to her marriage.

Frank Cahill, wife, née Katherine O'Neill of Peoria, Ill., who have been visiting friends in Los Angeles for the past three weeks, left for home last evening. They were on the northern route and intend to spend several weeks visiting the principal cities on the way back East.

Mr. and Mrs. R. Brown have returned from Long Beach to their home at No. 328 Echo Park road, where Mr. Brown is dangerously ill.

Deew's Vitality.

Senator Deew was in Wall street recently, puffy, active, his top stoic as that of a man in the forties. Two men who knew him by sight watched him admiringly as he passed.

"Deew," remarked one, "seems to have found the elixir you speak of. He is alone of his contemporaries preserved in such a manner."

"G. Hilton Scribner is snowball and feeble, while William C. Whitney shows his age more than his strength."

"Perhaps," suggested the other, "Deew owes his excellent preservation to the practice of vegetarianism."

"That is what I asked the first."

"I never heard of his being a vegetarian."

"Never? Don't you know that he exists mainly on chestnuts?"—[New York Times.]

Emperor William has decided to erect a monument to the late Herr Krupp, the gunmaker, before the Imperial Yacht Club at Kiel.

The bride has for seventeen years been a resident of San Diego, and has a wide circle of friends.

"The bride is one of the leading citizens of Avalon, and has the honor of being the inventor of the famous glass-bottom boat, which has brought the island of Santa Catalina into wide fame. After a brief sojourn at San Diego, Mr. and Mrs. Guruis will return to their residence on the island."

Taffy Pull.

On Sunday evening at 8 o'clock, a pretty wedding occurred at the home of the bride, No. 802 East Ninth street, in this city. The contracting parties were William Guruis of Avalon and Mrs. Henrietta Segger. The parlor and dining-rooms were decorated with California palms and hot flowers. The happy couple stood beneath the overhanging palms, while the ceremony was pronounced by Rev. Philip Cone Fletcher of Fort Smith.

The bride has for seventeen years been a resident of San Diego, and has a wide circle of friends.

"The bride is one of the leading citizens of Avalon, and has the honor of being the inventor of the famous glass-bottom boat, which has brought the island of Santa Catalina into wide fame. After a brief sojourn at San Diego, Mr. and Mrs. Guruis will return to their residence on the island."

A Birthday Surprise.

Mr. and Mrs. John W. Murphy of No. 411 West Twenty-second street were surprised last Friday evening by a party of friends who assembled in honor of Mrs. Murphy's birthday. The company was delightfully entertained by the Gardner Orchestra, and Mrs. Mary Morris gave a party which was welcomed. Several fine solos were rendered by Mrs. Eleanor Hedges, and Mrs. Anna Gates and Mrs. Hedges, of the mandolin club, sang choice selections. Refreshments were served in the dining-room, which was handsomely decorated with La France and the "Ladies" Mandolin Club.

The company was divided in honor of the birthday month. Mrs. Murphy received a number of beautiful presents, and the party adjourned to the home of Mrs. Mary Merry and Mrs. Anna Gates.

It was a large gathering, and the party was well received.

"I am so thankful I tried it as I know it will cure me," said Mrs. Murphy. "I have had such trouble lately I would take it at once. Since I am cured I have recommended it to my friends, whom I know to be afflicted as I was, and I know they will use it too. I am so thankful I ever learned of your grand," said F. H. 490 Second street, Grand Rapids, Mich.

BUSINESS.

FINANCIAL AND COMMERCIAL OFFICE OF THE TIMES.

Los Angeles, Oct. 27, 1903.

FINANCIAL.

TODAY'S BANK CLEARINGS. The clearings of the Los Angeles Clearing house today amounted to \$305,621.45, as compared with \$305,915.95 for the corresponding period of last year, an increase of \$20,675.55. Following is a comparative statement of local clearings day by day for the week as it stands, beginning Monday, October 26, 1903:

MONDAY, Oct. 26, 1903. TUESDAY, Oct. 27, 1903. WEDNESDAY, Oct. 28, 1903.

LOS ANGELES, Oct. 26, 1903. BOSTON, Oct. 27, 1903. BOSTON, Oct. 28, 1903.

LAST YEAR'S GOLD. The Director of the Mint has issued a preliminary estimate of the gold production of the United States during the calendar year 1902. During that year the country produced gold valued at \$16,563,700, an increase of \$1,665,470 over the previous year.

The largest production of \$1,665,470 was in the Union is credited to California, which comes next with \$17,134,941.

The Klondike yielded \$14,561,101, and Alaska, including Nome, \$7,833,792. The output of gold in the United States for the year 1901 was \$16,893,700.

The following table shows the gold production of the United States for the last ten years:

1900	1901	1902	1903
\$25,655,000	\$26,000,000	\$26,500,000	\$26,500,000
45,610,000	45,610,000	45,610,000	45,610,000
53,688,000	53,688,000	53,688,000	53,688,000
57,883,000	57,883,000	57,883,000	57,883,000
61,063,000	61,063,000	61,063,000	61,063,000
79,171,000	79,171,000	79,171,000	79,171,000
72,666,700	72,666,700	72,666,700	72,666,700

It seems likely that in a few years the total output of gold will reach \$30,000,000. In the year 1899, the production of gold, silver and copper was considerably less than a year ago.

The year 1902 was placed at \$4,220,000 bushels, says American Agriculturist.

GENERAL BUSINESS TOPICS. CITRUS-PRUIT SHREWDEN: Car-loads shipments of citrus fruits from Southern California to eastern points as reported daily for the preceding day are as follows, the season beginning November 1, 1902:

MONDAY, Oct. 26, 1903. TUESDAY, Oct. 27, 1903. WEDNESDAY, Oct. 28, 1903.

LOCAL BOND SALE. The Los Angeles Stock Exchange reported the sale today of one \$100 Home Telephone bond at \$115.

Clearings on the exchange were as follows:

MONDAY, Oct. 26, 1903. TUESDAY, Oct. 27, 1903. WEDNESDAY, Oct. 28, 1903.

[NEWS REPORTS FROM TIMES CORRESPONDENTS.]

BANKERS' BOUQUETS
PASSED IN REDLANDS.CITY'S HOSPITALITY SHOWN THE
VISITING FINANCIERS.

Wrong Woman's Arm and Laugh on
the Man Who Grasped it—Knife
Wielder Bound Over for Trial—High
School Telestop.

REDLANDS, Oct. 27.—"I have trav-
eled all over the world, and have never
seen so beautiful a spot as this—it's a
perfect Paradise!" said John G.
Pfeiffer, president of the German Na-
tional Bank of Little Rock, Ark., to-
day, just as he, with the party of east-
ern bankers, was boarding the train for
Riverside. Comments and exclama-
tions of the beauty of the scene, along
the San Bernardino River, with the enthu-
siasm of James W. Edmunds, vice-
president and cashier of the National
Bank of Commerce, Baltimore, who
avowed: "Redlands is the most beau-
tiful place we have visited yet, and we
shall sing its praises everywhere."

John G. Pfeiffer, who arrived at the Santa Fe station it simply
showed bankers and their wives, and
incidentally a few of their sisters and
their cousins and their aunts, until
there was a company of nearly 200 to
be entertained. The party was awaiting
them. As they moved across the
few feet of intervening space, one
young man, who had made his opin-
ion known to the banker, gave a
beckoning finger from one of the
Reception Committee, and, hastily
clapping the arm of the lady next him,
said: "Come along, my dear, and we'll get in here."

Turning to see why she did not "com-
e along," as requested, he discovered
that his wife had dropped a pace be-
hind and that he was curiously insist-
ing that a mortal stranger, and it
proved on who was not even a mem-
ber of his traveling party, should
accompany him.

The carriage trip was under the
direction of the First National Bank
and tallyho open and covered, four-
seaters, surreys, private victoria, and
incidentally a few of the easterners
in waiting to convey the visitors over
the McKinley Drive, over the glories
of which the strangers waxed enthusi-
astic. The carriage was a two-horse
gaggon from one of the private resi-
dences, from a basket on his arm
tossed fragrant carnations into
each round of the ladies.

The ladies of the Hospitality Com-
mittee began when the party arrived
in San Bernardino this morning and a
delightful welcome was given by
K. C. Wells, president of the
Board of Trade; M. M. Phinney, vice-
president of the Union Bank; S. C.
National Bank, and G. C. Thaxter, secre-
tary of the Board of Trade, with Jefferson
Taylor as principal.

FRUIT SHIPMENTS.
The Malone Fruit Company will ship
this week three carloads of dried
peaches and prunes. The last two
weeks of hot, dry weather have been
ideal for fruit drying. The fruit
here is practically all dried and a
thousand boxes closed.

ONTARIO.
SCHOOLS CROWDED.
ONTARIO, Oct. 27.—The schools in
the Ontario district were never in bet-
ter condition than now, although every
building is crowded and more room
will have to be provided in future. It
takes twenty teachers to teach the
young idea how to shoot. Fourteen are
employed in the grammar schools and in
the High School, with Jefferson
Taylor as principal.

ON THE WAY.
CORONA.
LOCALETTES.

CORONA, Oct. 27.—The Corona Gas
and Electric Company received its
generators today. It is expected the
gas and electric plants will be in op-
eration by Dec. 1.

Mrs. George Brown entertained yes-
terday afternoon in honor of Mrs.
Elizabeth MacCullivray.

Mr. and Mrs. E. P. Kidder and
daughter of Reading, Mich., arrived
to spend the winter with Mrs. Kid-
der's nieces, the Misses Saxon. They
intend making their home in this

C. W. Woodward and family, with
Esther Burgit, will go to Whittier next
week to make their home.

John Thompson, vice-president of
the Bankers' Trust Company of New
York City, and his wife, will leave
Tuesday for the coast. They will
spend a week in San Francisco and
then go to Los Angeles.

The women of Woodcraft gave an
informal dance in McElhinny Hall last
evening with a good attendance.

Since "a crusade is better than no
bread," a small advertisement in The
Times brings in more business than no
advertisement at all. Telephone your
ad to the San Bernardino and our Redlands
Agency will take your ad and send it
to the main office.

ITEMS OF INTEREST.

A great many homes are going up
this fall, all over Redlands, varying in
size from the unpretentious tenthous-
and four-room cottage, to stately edi-
fices calling for lavish expenditure.
Incidentally, a few of the larger amount
of state have been issued to the ladies
of the City office since Sept. 1.

The High School trustees have been
presented with a three-inch equatorial,
electric and solar, with adjustable
range eyepiece and equatorial mounting,
for use in the school. The instru-
ment is the gift of Mrs. E. F. Part-
ner.

The Women of Woodcraft gave an
informal dance in McElhinny Hall last
evening with a good attendance.

bread," a small advertisement in The
Times brings in more business than no
advertisement at all. Telephone your
ad to the San Bernardino and our Redlands
Agency will take your ad and send it
to the main office.

SAN BERNARDINO.

RESCUE OF FLORENCE MAPLE.

SAN BERNARDINO, Oct. 27.—Floren-
ce Maple, the girl who cut high-
jinks at Nellie and who was sent to
the County Jail here for ninety days for
disorderly conduct, was released from
custody yesterday, several weeks be-
fore her sentence had expired, and
committed to the tender care of Staff
Captain Nellie Truelove of the Salvo-
nese Army and Navy Corps.

The young woman must re-
main at the home a few weeks, and
then she may do as she pleases. Her
present intention is to stick by the Sol-
evitists, and to lead an upright life.

BY THE WAY.

Mr. and Mrs. E. D. Roberts have re-
turned from San Francisco, where Mr.
Roberts' mother, a widow, was com-
mitted to the care of the San Fran-
cisco Hospital for the aged.

Mr. and Mrs. E. D. Roberts have
been married since 1895, and their
home is in the hills above Redlands.

CAN THE LAW MAKE
THE MULES MOVE ON?

PROPERTY owners of Sepulveda street, Pico Heights have reached the point where they will lose the horses to a serious injury to their property, and a probable menace to their health. Attorney George Adams has been retained, and a suit will be filed against the Rosedale Cemetery Association for damages for allowing its lands to be used by the Stansbury outfit as a stock corral.

It is said that the Stansbury lease runs for two years, and the residents of Sepulveda street, along the south line of which lies the unwelcome corral, have decided that either the horses or the men who are in possession first, will try to get the horses to move on.

It is said that the place is now kept in a more or less dilapidated condition than the first month or so, and the frequent visits of the Health Officer or his assistant have served to keep the former nuisance somewhat in check; but the householders aver that the

and going at all times of the evening to the barn, unless adjoining.

In fact the plaintiffs' "object" from every point of view, and they have reached the point of resistance where they purpose having the courts say whether their objections shall be sus-

pend.

CORONADO BEACH.
NOTES OF VISITORS.
SPECIAL CORRESPONDENCE OF THE TIMES.

HOTEL DEL CORONADO, Oct. 27.—Arrangements have been made at the hotel for the entertainment of party of 120 Ohio bankers at luncheon and dinner tomorrow. It is expected that they will be taken for a sail down the bay.

Mr. and Mrs. Charles E. Miner, who arrived last week from Boston, are located in the Hammer cottage, Ninth and C avenues.

A twilight tea was given yesterday by Mrs. Edward Wilson for her niece, Miss Rose Warren. Today the ladies

will be entertained at the home of Mrs. Frank McBrine.

Weather conditions are favorable for the teams to run him.

Woolen goods are in great demand.

LABOR

MAKE MONEY ON STRIKES.

Exposure of Methods Used by
Trades Unions.

Premium Paid to Men Who
up Industrial Warfare.

Preparing for Great Employers' Convention — Trial of
Sam Parks.

(BY DIRECT WIRE TO THE TIMES)
NEW YORK, Oct. 27.—[Exclusive Dispatch.] The following letter, which formed an addition to the literature of the miners' strike, was addressed to an operator in an important southern mill by J. G. Folian, a traveling agent of a union whose territory is in North Carolina.

It called from a New England operator the following comment: "Fifty dollars a month, with \$5 for each strike referee, will be paid directly to the trouble created by being arbitrary, is an ingenious mode of encouraging strikes, anyway, whether justified or not."

The letter follows:

"Dear Sir:—I hope you will look at this letter in a spirit of lightness. It is for your aid, and we can form a union in your town, and make the manufacturers pay living wages or close the factories. If we can form a lodge of one hundred men we can control business and start a strike and they will be forced to raise wages per cent or go to the wall. Now the plan is this: when a man who joins will pay \$4. This will make \$400 to go into the State treasury at for the support of the strikers until they go to work. I am instructed if we can gain your consent to become a member of our union, we will elect you walking delegate for which will pay you \$50 a month and expenses and \$2 a day while you arbitrate the strike, and for every strike you call on you get \$2. So you see you can have an income, besides your wages all the time. I have been informed by a man who worked at your place that your company is not paying living wages to all the men in orders on store in the town instead of money. This looks like freedom! Don't you need union men, so you can make such feelings come to time or close up shop? We are the backbone of the world, and we poor workers must stick close together, or rich devils will put the heels on our necks and grind us into the mud and keep us there."

"I am certainly sorry to hear that you are in such bad luck to have to work for 5 cents a day. Yours truly,
'J. G. F.'
'Traveling Agent.'

BIG EMPLOYERS' CONVENTION.
NATIONAL ORGANIZATION PLAN.

(BY DIRECT WIRE TO THE TIMES)
CHICAGO, Oct. 27.—[Exclusive Dispatch.] One of the greatest conventions of employers ever gathered in Chicago will meet Thursday and Friday to form an alliance for mutual protection against the aggressions of labor.

The largest associations of employers will be represented, among others the National Metal Trades, National Saddlery Manufacturers, Carriage and Wagon Manufacturers, National Furniture Manufacturers, National Lumbermen, United Typothetes, National Manufacturers, Illinois Manufacturers, Massachusetts Manufacturers, the Employers' Association, managers of the large cities will also have delegations here to take part. Among the employers will be A. C. Marshall, Dayton, O.; E. F. Du Brul, A. E. DeManie, A. C. Weston, Detroit; J. C. Craig, Denver; F. G. Hornbrook, Kansas City; and F. C. Naunacher, St. Louis.

It is proposed to form a central employers' association on the same lines as the American Federation of Labor. The campaign is to be one of education for meeting all labor's just demands, and fighting for the legal rights of employers. A gigantic defense fund may be contributed for this purpose.

A committee will meet at the Auditorium on Wednesday morning to draft a constitution and by-laws for the proposed organization. The tentative programme provides for the election of permanent officers, the adoption of by-laws and a constitution, the discussion of the labor problem, the formation of a bureau of education, the establishment of an official organ,

etc.

Rioting
AT BILBAO.

Forty Thousand Union Labor
Men Owe—Martial Law
Proclaimed.

BY THE ASSOCIATED PRESS—P.M.

BILBAO (Spain) Oct. 27.—[By Atlantic Cable] Martial law has been proclaimed here. All the traders have joined the strike, and 40,000 men are affected. Railroad and street-car traffic has been suspended. Cavalry is protecting the gas works against the strikers whose persistent efforts to stop any man from working have led to some rioting. The rioters stoned carriages that appeared in the streets, shouting "Death to the Bourgeois" and "Down with the tyrants." The mob was charged by the police, and shots were fired from both sides. Several persons were wounded.

Factories in Bilbao belonging to foreigners now fly their respective national flags. Business on the Bourse is suspended, and strikers have prevented the loading of vessels in the harbor. The shops are closed, and no newspapers are being published. Reinforcements of troops are arriving.

BY THE ASSOCIATED PRESS—P.M.

BOSTON, Oct. 27.—The murder of Sagatil Sagoni, president of the Armenian Revolutionary Society, in London, was not regarded as being of great political significance by Americans, this being rather the result of a bitter feeling which exists between two factions within the revolutionary party itself. In support of this was cited the desire of the party to have its own newspaper, the "Armenian," and the claim that Sagoni's society devoted funds to charity which would have been better applied to violent remedies for the Armenian grievances. Sagoni is said to have moved from England to New York early in 1885, and had threatened on account of his participation in the exposure by the editor of a Boston newspaper, Young Armenia, of the secret organization of funds by a faction of the Armenian revolutionaries. These men are alleged to have collected \$20,000 in America in 1885, and to have sent the money to their own pockets, instead of pushing the propaganda for the emancipation of Armenia, for which the party was subordinated.

BY THE ASSOCIATED PRESS—P.M.

BOSTON, Oct. 27.—[By Associated Press—P.M.]

LIVERPOOL, Oct. 27.—[By Atlantic Cable] John Chamberlain, a member of another monster meeting in the hippodrome here tonight. The meeting was held under the auspices of the Workingmen's Conservative Association and the 5000 persons present gave the former Colonial Secretary a tremendous reception. It was organized as an offset to the recent action of the government in the matter of the proposed tariff and preferential proposals.

Chamberlain devoted the first portion of his speech to the dumping of the manufactures of the United States and Germany in this country, which, he said, must result in the ruin of the country's industry, regarded the "dearer food," he pledged himself that his proposals would not add to the cost of living; on the contrary they would decrease the cost of living to the poorest families in the country.

The speaker devoted the greater part of his speech, which was for an hour and a half, to a powerful argument in favor of a powerful arrangement on the part of the Socialistic wing had taken oath to remove "all obstructions" in spreading their views.

PARKS EXTORTION TRIAL.

DEFENDANT IN UGLY MOOD.

(BY THE ASSOCIATED PRESS—P.M.)

NEW YORK, Oct. 27.—The trial of Sam Parks, the walking delegate, on a charge of extorting \$500 from Louis Schmidt, in connection with the Tiffany studio, was resumed today with the examination of witnesses. Parks was to be in a particularly ugly mood, and caused the newspaper man sitting near him, who was looking closely at him.

As soon as the jury was secured, Assistant District Attorney Band opened the case for the prosecution.

He referred to his remarks to the jury by saying:

"We are not here to antagonize the cause of labor unions, nor to voice the cause of the right of free labor, or the right of workers or capital. I say this to dislodge your minds of any ideas that Parks, a walking delegate of a labor union, is on trial as a walking delegate."

He is no more in terms of representation, although some persons have brought it into dispute. Parks is here charged with a crime, a statutory, one, known as TRACTION TRUST PROPOSED.

It developed today that a new traction company, headed by Alfred L. Skitt, the New York street railway financier, and backed by the Gould, Rockefeller and Hollins millions, is negotiating to lease or secure control of the properties of the Union and Consolidated Traction Companies with the ultimate purpose of securing the entire surface traction business of Chicago and other points in Illinois, Iowa, Missouri and Ohio. T. C. McCracken appeared for the defendants and was overruled by Judge Newburger, and the trial adjourned until tomorrow.

MISS DEARDORFF MARRIED.

MISS ANNE Elizabeth Deardorff, daughter of Mrs. David Porter Deardorff, was married this afternoon to Howard Arthur Hess.

PENN'S FINE DEPOT.

(BY THE ASSOCIATED PRESS—P.M.)

CHICAGO, Oct. 27.—[Exclusive Dispatch.] The low temperature of the season in Chicago was reached at 6 o'clock this morning, when the government thermometer recorded 33 degs. The maximum was 52 at 4 o'clock this afternoon. Clear skies and low temperature were general throughout the whole Middle West. Temperatures at 1 a.m.; New York, Boston, St. Louis, 36; Philadelphia, Washington, 38; Chicago, 34; Minneapolis and Cincinnati, 32.

Mr. Osborne of the defendant's council, made two formal motions to dismiss the indictment, and asked that the District Attorney should elect on the evidence which would sustain his case. Both motions were overruled by Judge Newburger, and the trial adjourned until tomorrow.

The letter follows:

"Dear Sir:—I hope you will look at this letter in a spirit of lightness. It is for your aid, and we can form a union in your town, and make the manufacturers pay living wages or close the factories. If we can form a lodge of one hundred men we can control business and start a strike and they will be forced to raise wages per cent or go to the wall. NAVAL CONSTRUCTOR SMITH.

WASHINGTON, Oct. 27.—The opening service of the missionary council of the Protestant Episcopal Church was held yesterday at the Epiphany church. Bishop Doane, in presenting the report of the board of managers, called attention to the completion of the Chinese mission, the Chinese language, the classical language of the Chinese. The total receipts of the treasury for the year ended August 31, the mission, will be now continuing the instruction of naval vessels now sailing on the Delaware.

VOLCANO MAKES NOT COFFEE.

PANAMA, Oct. 27.—News has reached here that the volcano of San Juan de Nicargua is in eruption, and that the consequent fall of ashes has damaged a considerable number of coffee plantations in the neighborhood. The amount of damage is said to be small, and the coffee crop will be very small in other departments.

<p

BUSINESS.

Notwithstanding the approach of the end of the month, business is everywhere reported good. The local bank clearings yesterday amounted to almost a million dollars, showing an increase of more than 47 per cent. over the corresponding day of last year.

Rumors of financial trouble in St. Louis had the effect of accentuating the inclination in Wall street to sell stocks. However, the considerable demand for stocks during the day was freely fed for purposes of profit-taking. Larger world's stocks of wheat than had been expected resulted in a selling-off in the Chicago market. Corn and oats closed under opening figures.

THE "PUGS" MUST GO.

Another prize fight was "pulled off," as the sports say, in Los Angeles last night. Two negroes, splendid specimens of physical manhood, and well able to earn an honest living, stood up in a roped arena before thousands of onlookers and mauled and pounded each other with the usual brutality that marks affairs of the kind. There was no bad blood between the men. They were not enemies. They did it just for the dollars there were in it. And there were plenty of dollars in it, for the foils are not yet all dead nor are the barbaric instincts of the stone age yet obliterated from human nature.

Civilization is certainly having a hard struggle to whip the genus homo into the semblances of decency and refinement, and it would appear that centuries will still be required to mellow mankind into such a state of gentleness as will make the world ideal from a true viewpoint. Men seem to be as ready now as they ever were to war with each other on land and sea, the mob spirit seems as dominant as ever in them, and blood and butchery attract them as much as they did before music and letters were written or peace had been preached from Galilee.

Doublets there is no factor in the human affairs of today that does more to keep alive the brutal instincts of man than prize fighting. It is the school wherein brutality and the taste for brutality is taught. The institution should be stamped out. The really self-respecting communities of the country no longer tolerate it, and it is a crying disgrace that its beauties should besmirch this fair city. Let last night's exhibition be the end of it in Los Angeles.

NEVER A GREATER MISTAKE.

Under the above heading, the Spokesman-Review of Spokane, Wash., publishes the following editorial on the subject of union-labor rights and assumptions:

"Few will dispute the assertion advanced at Chicago yesterday by John Mitchell, president of the United Mine Workers, that the union workman has a perfect right to decline to work alongside a non-union workman. But Mr. Mitchell failed to state the bill of rights in its entirety.

The union member has a right to work where he pleases, and for what wages he pleases. But he has no right whatsoever, after he has refused employment, to exhibit the dog in the manger spirit. The moment he discards a job, his rights cease in so far as that job is concerned.

For the man's right to treat the non-union man as a criminal. No right to interfere with the lawful pursuits of that non-unionist. No right to annoy, harass or assault the law-abiding citizen who is taking something that he himself would not have. No right to do violence to another.

"Any contrary construction is unfair, unreasonable and un-American, and rests upon the impossible notion that under the flag and the laws of the United States there shall be a favored class entitled to superior rights, and inferior class entitled to no rights.

The Times has been affirming and reiterating these irrefutable truths, for lot of these many years. It is only within a comparatively recent time that the newspaper and magazine press of the country has taken up the questions here touched upon, and discussed them with anything like seriousness and impartiality. Those papers which have the courage and good sense to discuss these questions in good faith, are speedily forced to the same conclusions as are reached in the Spokesman-Review's article above quoted. Sound reasoning, in truth, can lead to no other conclusion.

It is gratifying to note that the press of the country is finding its voice on this important subject. The growing menace of labor-union tyranny is forcing an alignment against it of all men who believe in and

the principles of freedom and equal rights upon which our republican government is founded. This alignment is bound to become more and more pronounced as the fact becomes increasingly apparent that the demands and aggressions of misled labor-unionism are diametrically opposed to the fundamental principles upon which our government is built.

We are still living in the United States of America, and the great majority of the inhabitants thereof are Americans in spirit as well as in name.

TROLLEY LINES AS FEEDERS.

Officials of the New York Central railroad, according to a recent dispatch from New York City, are planning to establish electric roads as suburban branches, in the central and western part of the State, the object being to regain local traffic which they have lost, and to save local traffic which they are in danger of losing, by reason of the competition of independent trolley lines.

Two years ago, as the dispatch informs us, the New York Central road endeavored to stem the tide of trolley competition in local traffic by reducing fares and increasing the daily number of trains, let it be said to the everlasting credit of Japan, that in the war game with Russia there was never a moment that it could be told from the color of her countenance whether she was holding up a pair hand or blushing it through on a Robert-tailed flush.

An Alabama editor says that the Bryan sentiment in that State has merged into a strong support for Cleveland, but that the Alabama and Democratic who are nominated.

The last statement does not come in the name of a startling surprise to the rest of the country.

If you attended the fistic episode last evening, and saw a couple of chocolate-colored negroes, who were features in a glib pie, you ought to feel very much more morally elevated this morning. If not, you simply failed to catch the true spirit of the occasion, that's all.

Although Mr. Bryan's conduct in the trolley war still matter appears so far, to have been above suspicion, still that Russell-Sage grip is so tenaciously retained on the \$50,000 legacy is hardly becoming to such a much-touted "tribune of the people" as Mr. Bryan.

In some of the southern towns where the yellow fever is rampant, they are heeding the citizens within the city limits with shotguns. It will be seen at a glance that these places are rather than on steam roads, and people are not required to lose so much time waiting for trains. Then the trolley lines generally run through the principal streets of cities, so that the cars can be boarded readily, without the necessity of going to a central station to make the start.

The managers of steam roads will do well to recognize the fact that electric roads have "come to stay," and the further fact that instead of entering into wasteful and irritating controversies, in an attempt to shut out trolley lines, in certain sections, the wiser course would be to adopt the trolley as an auxiliary of the steam road, rather than on steam roads, in suburban transit. One reason for this preference is doubtless the fact that it is practicable to give much more frequent service on the trolley lines than on steam roads, and people are not required to lose so much time waiting for trains. Then the trolley lines generally run through the principal streets of cities, so that the cars can be boarded readily, without the necessity of going to a central station to make the start.

AY, OCTOBER 28, 1903.

FAIR AUTOMOBILE CASE.

PARIS, Oct. 27.—The investigation of the accident to the fair automobile which occurred on the 25th is continued today. The latest testimony appears to prove that Lucien Mas and A. A. Morrison, who are accused of perjury in connection with the testimony they gave in New York, were actually present at the scene of the accident.

It Is True.

That in buying a piano, what you pay should be less than what you will receive. Select your piano then, not on its price, but on its musical excellence. It is better to pay a fair price for a piano which will last you longer for you can then buy a piano which will be out of order all the time. Buy a piano for your children, and sometime they may buy bread for you with money earned by them on the piano. But the best argument and then enjoy its possession because it is the thing desired. Twenty-nine years has taught us that Weber Pianos are best. Let us show you how good they are.

so well that I can now see
without glasses. Their price
is reasonable."

morning we have on sale the
referred patterns in spoons
and forks of eight different
patterns all bought before
now. The price of the set
is \$1.00. With
exception we are selling the
sets of all these factories at the
price of solid Silver.

We talked silver to you al-
most every day for a month.
nearly know that the price
of solid silver has increased
so much that we add the
last time—it will be still in-
laid in price. The reason: Sil-
ver is steadily climbing up
little.

of taking personal ad-
of this increase in our prof-
it on advance stock in price
of solid silver. With
the price of solid Silver. With
exception we are selling the
sets of all these factories at the
price of solid Silver.

into this silver matter.
Get our prices, if you will,
from a single teaspoon
most elaborate oak trunk
hundreds of pieces. Com-
pany, silver and the rich
one of all the pieces that go
up a complete set of silver.
very interesting to you.
you.

ITGOMERY BROS.
WELERS AND SILVERSMITHS
BROADWAY

Liners.
